Title	Dates	Time	Frequency	Site	Instructor	Course Description
Accounting I	ARR	Online	Online	SOCRATES (Host) GHEC (7)	Darlene Leimer	Through this course, students will gain a foundation in the skills needed for college accounting courses, office work, and managing their own businesses. These skills are necessary for any student planning to major in Business in college.
Accounting II	ARR	Online	Online	St Peter(Host)	George Schoenborn	
Algebra II	ARR	Online	Online	SOCRATES (Host)	Michelle Larson	
Algebra, College, SWSU	Fall semester	11:25 am to 12:16 pm	Daily	St Clair (Host)	Jason Anderson	Open to grades 11 & 12. Prerequisite: PSEO Eligible/B in Algebra II. This course will be devoted to college algebra. Students must enroll at SWSU.
Algebra, College level math	Sept 8 to June 4	12:31 pm to 1:20 pm	Daily	Ashby (Host) (10)	Lisa Widgahl	First semester is college algebra. Second semester is a college pre-calculus course. . Offered through MSCTC, Fergus Falls.

Title	Dates	Time	Frequency	Site	Instructor	Course Description
Agriculture, Natural Resource Science	First Semester	1:20 pm to 2:09 pm	Daily	Alden-Conger (Host)	Pam Koenen	Fulfills environmental science credit. This course will investigate scientific concepts relating to the biological and physical components of our environment. Laboratory activities will provide opportunities for problem-solving through practical applications relating to current natural resource issues. Current legislation regarding these issues will be discussed. We will look at how agricultural, urban and industrial regulations and compliance impact the environment.
Agriculture, Small Animal Science	Second Semester	10:14 am to 11:03 am	Daily	Alden-Conger (Host) GHEC (7)	Pam Koenen	Fulfills science credit. This course is designed to enable students to acquire knowledge and develop skills in three diverse areas of animal science: horses, companion animals (cats & dogs), and alternative animal agriculture. A wide range of topics will be studied including selection, reproduction, nutrition, and disease control. All three groups of animals have special needs that are unique to animal agriculture.
Agriscience Introduction	One Semester		Daily	Glennville-Emmons (Host)	Angie James	What does agriculture have to do with me? Everything! Come explore the vast world of agriculture from cows, cats and chickens to flowers, hunting and leadership; there is something for everyone in this introductory class. Students will be introduced to all topics in agriculture along with a unit on leadership and parliamentary procedure. The basics of FFA will also be introduced in this class. Students need not be an FFA member to enjoy this class.

Title	Dates	Time	Frequency	Site	Instructor	Course Description
Agriculture, Natural Resources	Sept 8 to June 3		Daily	Glenville-Emmons (Host)	Angie James	Course title: Natural Resources, Alternative Energy, and Environment. Science grade level: 9-12. Want to learn more about how we interact with the world we live in? Students will learn about their environment, and the environment of other organisms around them. Habitat structure, water quality and biomes are topics that will be explored in a hands-on atmosphere. Get ready to dig in and get dirty! Attention will also be given to the various types of renewable and alternative energy sources that are found throughout the United States and the world.
ASL 1	Sept 8 to June 4	7:10 am to 8:00 am	Daily and independent study	SOCRATES (Host) Nicollet (2)		
ASL I	Sept 8 to June 4	9:00 am to 9:46 am	Daily and independent study	SOCRATES (Host) Montgomery	Kari Sipple	American Sign Language first-year course. Title	Dates	Time	Frequency	Site	Instructor	Course Description
Calculus, College, SWSU	Sept 8 to June 4	10:00 am to 10:51 am	Daily	St. Clair (Host) Lake Crystal (3)	Jason Anderson	Open to grade 12. This year-long course is the most advanced math course at St. Clair Secondary, with the college credits awarded at the completion of the second semester. The course consists of Cartesian planes, graphs of equations, lines in the plane, functions, trigonometric functions, limits, differentiation-tangent lines, product and quotient rules, chain rule, implicit differentiation, applications of differentiation, integration-antiderivatives and indefinite integrals. Students must be PSEO eligible and enroll at SWSU.
Chinese Mandarin I	Sept 8 to June 4	Multiple Sections Section for Grades 5 & 6	Daily M,W,F Independe nt study Tu,Th	SOCRATES (Host) Nicollet (1)		First year course for grades 7-12. Chinese language and culture. Covers basic syntax of the modern Mandarin Chinese conversational language, with focus on simple vocabulary building, character recognition, and memorization using Chinese songs, games, and calligraphy. Mandarin is the most used Chinese dialect. In addition the course will help the student understand the culture and heritage of approximately one fifth of the world's population. Textbook: <i>Integrated Chinese, Level I</i> . Student tuition is \$375 per semester.
Chinese Mandarin II	Sept 8 to June 4	Multiple Sections	Daily M,W,F Independe nt Study Tu,Th	SOCRATES (Host)		Second year course for Grades 8-12. See description below.

Title	Dates	Time	Frequency	Site	Instructor	Course Description
Chinese Mandarin II	Sept 8 to June 4	Multiple Sections	Daily M,W,F Independent study Tu,Th	SOCRATES (Host) Nicollet (2)		Second year course for grades 8-12. Prerequisite is Chinese I. This course is structured for the student to continue the study and mastery of the basic skills of speaking, writing, and reading beginning Chinese. As in Chinese 1, the course focuses on modern Mandarin Chinese, but some commonly used formal expressions used only in written Chinese are also included. Students will become acquainted with contemporary Chinese life and the contributions of Chinese culture. Student tuition is \$375 per semester.
Chinese Mandarin III	Sept 8 to June 4	TBA	Daily M.W. F Independent study Tu,Th	SOCRATES (Host)		Third year course for grades 9-12. Prerequisite is Chinese II. This course is structured for the student to continue the study and mastery of the basic skills of Chinese language and culture. Students will become more acquainted with contemporary Chinese life and the contributions of Chinese culture. The student will participate in such speaking activities as dramatizations, discussions, and narrations, will read contemporary short stories and newspaper articles, and will apply structural concepts and new vocabulary to the writing of descriptive passages. This course is aligned with the first year of college-level Chinese. Student tuition is \$375 per semester.
Composition, College English 1276	One Semester Course Offered Both Semesters	1:15 pm to 2:05 pm	Monday and Wednesday are ITV and other days online	Pine Tech College (Host)		Four credit general education course. Prerequisites are college level reading and writing. This course presents students with the process of writing for communication of ideas to the public. Focus is on the generation, organization, and communication of ideas in expository essay forms based on experience, observation, and research, with emphasis on argumentation, critical thinking, and rhetorical strategies. Mechanics and writing style will also be stressed.

Title	Dates	Time	Frequency	Site	Instructor	Course Description
Computer Programming Fundamentals SCC 1000 4 College Semester Hour Credits	Sept 8 to June 4			SOCRATES (Host)	Peter Johnson	SCC concurrent enrollment/PSEO course, which is designed to be a person's first major exposure to the world of computer programming. This course covers how to design and implement a computer program that will remember things, make decisions and perform repetitive tasks. Students will explore the worlds of both procedural and object-oriented programming. The course involves the use of analytical procedures, pseudo-code, programming languages designed especially for academic use as well as those in use in today's businesses, and an introduction to 3D graphics, gaming and simple robots.
Computer Web Development SCC 1400 4 College Semester Hour Credits	Jan 22 to May 29			SOCRATES (Host)	Peter Johnson	SCC concurrent enrollment course, which focuses on using XHTML to create attractive web presentations. Students will be trained on creating a presence on the Web. Topics include essential HTML elements and techniques, effective graphical design using CSS, Search Engine Optimization (SEO), using FTP to transfer files, tables, and forms. Dreamweaver, a popular web development tool, is taught as an optional portion with this course and there is a brief introduction to Photoshop focusing on using graphics on the Web.

Title	Dates	Time	Frequency	Site	Instructor	Course Description

Driver Education and Traffic Safety TSE440/549 TS450/550		5:30 pm to 9:00 pm		SCSU (Host)		One to three semester hour credits.

Title	Dates	Time	Frequency	Site	Instructor	Course Description
Food Science	Sept 8 to June 3		Daily	Glennville-Emmons (Host)	Angie James	Local site needs some equipment.
French I	ARR	Online	Online	SOCRATES (Host)	Carol Nasby	<p>This class will put at your fingertips resources for learning the basics of the French language. The basic vocabulary you will be learning about yourself, your family, your free-time activities, and your community.</p> <p>In the process you will learn about the French people, about their culture, and about their language. We will do weekly activities, projects and/or quizzes and monthly web-cam checkups on pronunciation and speaking skills. The oral part can be learned from video and listening activities with the online text and is a basic to our class. The textbook will be an outline text called <i>Allez, Viens</i>, and there will be online activities as assessments.</p>
French II	ARR	Online	Online	SOCRATES (Host)	Carol Nasby	<p>French listening, speaking, reading, and writing skills will be expanded using various Internet tools. Students will be expected to do daily work, and do weekly projects or assignments to demonstrate their learning. The text uses online exercises and videos, flashcards and quizzes. The units studied are food, daily routines, sports, and music. The grammar that will be mastered are past and future tense, and also the imperfect and descriptive past. Students will be involved in reading and telling, and in monthly speaking check with the web-cam or telephone. Students should have at least a C in French I to enroll and should be able to manage their time well. Cultural units to be studied are on the French speaking world and the geography of France. The online text <i>Allez, Viens</i> has activities and online assessments.</p>

Title	Dates	Time	Frequency	Site	Instructor	Course Description
French III and IV	ARR	Online	Online	SOCRATES (Host)	Carol Nasby	French listening, speaking, reading and writing skills will be expanded using various internet tools. Students will study French speaking Europe, Africa, and America. Students will be expected to do daily work, and do weekly projects or assignments to demonstrate their learning. The grammar will be a review of the basics, present and past tense, and add future, conditional, and subjunctive tenses. Use of online newspapers and new stories will be embedded into the course to expand vocabulary growth and relate to today's world. Students will make videos and do audio projects to demonstrate their skill in speaking. The text <i>Allez, Viens</i> uses online exercises and videos, flash cards and quizzes.
German I	Sept 8 to June 4	12:22 pm to 1:10 pm	Daily	SOCRATES (Host) LeSueur (13)	Marie Kreft	First year course for grades 9-12. Conversational exchanges as vocabulary and sentence structures are learned. Although the emphasis is on the spoken language, the written language is also studied. As the class progresses, students will be involved in reading exercises, listening comprehension skills, and the learning of the history, geography, various songs, and cultural aspects of the German speaking countries. Textbook: <i>German Today I</i> .
German II	Sept 8 to June 4	11:22 am to 12:06 pm	Daily	SOCRATES (Host) LeSueur (9)	Marie Kreft	Student independent study and class. Second year course. III/IV available if sufficient interest. Continues to emphasize the spoken language, but also stresses further development of a wide range of vocabulary and an expanded understanding of the language as students are involved in a variety of writing and reading projects. Textbook: <i>German Today I and II</i> .
German	ARR	Online	Online	SOCRATES (Host)	Pat Bransted

Physics	ARR	Online	Online	SOCRATES (Host) Ashby (2)	Eric Kehoe	<p>Physics online can be either one or two semesters</p> <p>Semester I: Motion. Topics covered: Describing motion mathematically and graphically, Newton's Laws of Motion, vector addition, momentum, energy.</p> <p>Semester II: Waves, electricity and magnetism. Mechanical waves (including sound), Electromagnetic waves (light), electric field, electric current, magnetic fields</p> <p>The students will learn the physics content through a mixture of different activities. Generally in classes Units are taught starting with a simple exploratory activity to elicit students prior knowledge. Once students realize what they already know and what they are lacking, they are ready to learn. Students are then introduced to the topic. After which they will receive book work to practice the new skills along with labs to apply them. For the online course, labs will consist of a mixture of "real" and "virtual" lab work. Whenever possible the student will conduct a "real" lab when the equipment needed is easy to come by and set up. "Virtual" labs will be reserved for labs that need hard to find equipment or are difficult to conduct without an instructor present.</p>
Psychology AP				St. Peter (Host)		
Rhetorical Writing ENG 191	Aug 25 to Dec 19	7:10 am to 8:30	Mon, Wed, Fri	SCSU (Host)	Steve Crow	PSEO. Introduction to rhetorical writing and analytical writing. Three college semester credits.

Title	Dates	Time	Frequency	Site	Instructor	Course Description
Rhetorical Writing ENG 191	Jan 7 to May 23	7:10 am to 8:30 am	Mon, Wed, Fri	SCSU (Host) GHEC (9)	Steve Crow	See description above.
Spanish I	ARR	Online	Online	SOCRATES (Host)	Sue Ehlers	Spanish I is an introduction to the study of a new language and to the culture of Spanish speaking countries. The objective of the course involve a commitment to the development of the four skills: speaking, listening, reading and writing Spanish within the limits of vocabulary and grammatical structure. This course focuses intensively on speaking ability. Activities incorporating the customs, traditions, cultures and backgrounds of Spanish speaking peoples are intertwined into each unit. We use the Ven Conmigo textbook along with other materials to gain the best possible learning atmosphere.
Spanish I	Sept 8 to June3	8:20 am to 9:10 am	Daily	Glenville (Host)	Stepanie Abele Roedel	See description above. For grades 9-12.
Spanish I	Sept 8 to June 3	12:22 pm to 1:12 pm	Daily	Glenville (Host)	Stephanie Abele Roedel	See description above. For grades 4 and 5, with one half hour class.
Spanish I	Sept 8 to June 3	11:36 am to 12:22 pm	Daily	Glenville (Host) Ashby (25)	Stephanie Abele Roedel	See description above. Daily one-half hour classes for grades 4 and 5.
Spanish I	Sept 8 to June 3	1:45 pm to 2:35 pm	Daily	SOCRATES (Host)	Stephanie Abele Roedel	See description above.

Title	Dates	Time	Frequency	Site	Instructor	Course Description
Spanish II	Sept 8 to June 3	12:30 pm to 1:50 pm	Daily	Glenville-Emmons (Host)	Stephanie Abele Roedel	Spanish II is a continuation of Spanish I. New verb tenses, vocabulary and grammar are introduced and practiced throughout the course. There is a more in-depth study of history, geography, and customs of Spanish speaking countries. In addition to the text, Spanish language news articles, regalia and videos are used in the learning progression of this language. We use the Ven Connigo textbook along with other materials to gain the best possible learning atmosphere. For grades 10-12
Spanish II	Sept 8 to June 3	2:15 pm to 3:05 pm	Daily	SOCRATES (Host)	Stephanie Abele Roedel	See description above.
Spanish III	Sept 8 to June 3	9:19 am to 10:09 am	Daily	Glenville-Emmons (Host)	Stephanie Abele Roedel	Spanish III consists of combining the prior knowledge gained from Spanish I and Spanish II and then building upon that prior knowledge. Spanish III focuses on the students ability to combine speaking, listening, reading and writing skills to be able to communicate effectively in the Spanish language. There is more focus on the cultural aspect of the language and the students are expected to connect with the community using their knowledge with the Spanish language and culture. For grades 11-12. The students will use Spanish to discuss and to debate various topics.
Spanish III/IV	Sept 8 to June 4	2:08 pm to 2:58 pm	Daily	SOCRATES (Host) JWP (5)	Stephanie Abele Roedel	See description above, plus added content.
Trigonometry, College, SWSU	Spring Sem.	12:30 pm to 1:17 pm	Daily	St Clair (Host)	Jason Anderson	Open to grades 11 & 12. Prerequisite: PSEO Eligible/B in Algebra II. This second semester course will be devoted to special functions including trigonometry. Student must enroll at SWSU

NOTES

1. Please submit requests for ITV and online classes not included above to Dale Carrison.
2. Please submit ITV and online classes that your school district can provide to Dale Carrison.
3. Please note that many online classes, including AP classes, are available in several different curriculum areas and from several different sources. SOCRATES 6036 is now a MDE certified online course provider.
4. ITV/Online classes with or without times listed are negotiable for a specific time period.
5. American Sign Language (ASL) enrollment is growing, and is the third most spoken language in the US.. Please consider this language class for your school.
6. Please note the Health Occupations classes for both fall and spring semester, and more can possibly be added if needed.
7. Please note that Chinese Mandarin Language is a ITV/Online language course. Other languages are also available. Chinese is a sought after skill in the business world and in the military services.
8. Please contact Dale Carrison (507-388-4264) with any questions about distance education.
9. Please contact Dave Henning (507-995-0165) with any questions about online classes.
10. Distance education classes are available from other regions in Minnesota, if a requested ITV and/or online class is not available in the SOCRATES region.
11. Licensed CTE teachers are available in several CTE curriculum areas. Contact Glenn Morris with any questions that you may have.
12. Blended classes are a combination of ITV, online, and web site activities.
13. Unless otherwise noted, all classes are \$600 per student per year for tuition and \$300 per semester. College classes for PSEO and concurrent enrollment may be more or less than that amount, because of tuition variance. The Chinese Mandarin courses, ASL courses, and Health Science courses will be \$375 per student per semester because of additional expenses for these three courses. If appropriate and needed, school districts may share a teacher and split the teacher cost among themselves.

14. The enrollments listed for full-year courses on the schedule, version July 2, 2009, will be considered final for charging purposes. The enrollments listed for Second Semester courses on the December 8, 2009, schedule will be considered final for charging purposes. However, students can be added to any class when possible to add more students and/or host sites at any time.
15. Several higher education institutions including, but not limited to, SCSU, MSUM, SWSU, WSU, Riverland, SCC, offer ITV, online, and blended AP and concurrent enrollment courses which are available to SOCRATES.
16. Please note the South Central College concurrent enrollment two computer courses which have been added to the schedule, along with a Medical Terminology course. Other SCC concurrent enrollment courses will be added if requested.
17. Teacher sharing: several SOCRATES school districts have science, math, FACS, and business teachers to share time.
18. Elective courses: SOCRATES school districts may request sophomore, junior, and senior elective courses, as well as K-8 courses.
19. Courses needed by SOCRATES school districts for credit recovery, reading, writing, math, and remedial study skills are usually available..
